

# It Happened TODAY

## People

The Aga Khan is going to become a grandfather. Prince Aly Khan officially announced that his American movie star wife, Rita Hayworth, is expecting a baby. International social circles have been rumormongering the fact for weeks. Aly Khan did not reveal date baby is expected.

AGA KHAN  
... Grandpa-to-be.

Canadian-born British M.P. Beverley Baxter said in a Vancouver interview there is a "real likelihood" of an early election in Britain "because of tremendous pressure from outside the country."

President William Green of the 8,000,000-member American Federation of Labor expressed hope the AFL and the CIO would unite as a single labor body. While no definite steps towards a reunion have been taken recently, Green said he has hopes for what he termed a "final adjustment" with the CIO.

## Finland

In Helsinki, Finnish Minister without Portfolio Unto Visakorpi warned Communists the government is "fully prepared to deal with any attempts to stage a coup." He accused Finnish Communists early of trying to seize power through a general strike scheduled to start tonight among 100,000 workers.

## Hawaii

As the Hawaiian dock strike except into its history, the freighter Hawaiian Farmer, with a \$750,000 cargo in its hold, was to be seized and unloaded by government stevedores. The Farmer was ordered seized by federal court order.

## Medicine

Radioactivity-seeking Geiger counter went medical in Pueblo, Colorado, Wislawa J. Nafe, 47, swallowed accidentally a radium needle during treatment for a throat ailment. Doctors used a Geiger counter to locate the needle, which had passed into his intestinal tract. He was reported "weak and tired" today.

## Canada

Record shipments of wheat have gone through the Hudson Bay port of Churchill for the last three seasons are an evidence of interest by the Canadian Wheat Board in its development, the Board said today.

Vancouver palates are going to be titillated with frog meat shortly. Albert George Gaspard has a couple of thousand jumbo frogs—result of 12 years of work—in his back yard, and he's ready to start selling frog meat to hotels and clubs. Price is \$17.50 a pound. Frog tastes like combined crab and chicken.

## Europe

It was announced in Munich, Germany, by the U.S. military government that a \$300,000 loan has been approved to finance the famed Chiemsee Regatta. The regatta is held in Bavaria next year.

## Asia

Guerrilla attacks against the North Java port of Semarang have been beaten back by Dutch troops, Dutch military headquarters have announced. The Dutch said the attacks Tuesday and Wednesday were timed to coincide with Republican independence day celebrations.

LABOR BOSS GREEN  
... Plans big reunion.

## Israel

Israel and the Arab nations better reach an agreement, Washington officials have warned that the U.S. will not continue to underwrite a relief program for the more than 500,000 Palestinian Arab refugees.

## U.S. Affairs

First U.S. wholesale decontrol order of rents will be issued in a week or 10 days. Second and final order will be released around Oct. 1. Total of 4,500,000 homes and apartments must be decontrolled. First orders will remove rent ceilings on one third of the housing units.

In Washington, United Steelworkers (CIO) President Philip Murray was reported to have ordered a full mobilization of the Union's \$5,000,000 assets for a big steel strike next month.

## New Minister Avoids Issue

(Continued from Page 1)  
tional defense for air, back in 1945, he "flew all over this country."

### SPECIAL INTEREST

Col. Gibson is very interested in Alberta's oil development. "Especially," he said today, "since my home town, Hamilton, is rolling the steel for the pipelines."

He said that his department had more than 340 survey parties in the northern oil and mining fields. Pleasant, pipe-smoking Col. Gibson thought the newsmen in Winnipeg might have been a little more careful about the way they quoted him there the other day.

"I told them," he said, "that I thought the day would come soon when Canada would be producing at least 50 per cent of our oil requirements."

### MIXED UP

"They got it all mixed up, said we would be shipping 50 per cent of our oil to the United States." Col. Gibson, a five-time member of Canada's Bliley team, said he doesn't do much shooting these days. "Only when the regiment runs short of a man."

He touched briefly on the recent general election. "The Progressive Conservatives are on the march," he said. "Backwards."

### TO VISIT BANFF

The 58-year-old cabinet minister, who was first elected to the House of Commons in 1940, hopes to visit Banff as well as Jasper before heading back east. On Wednesday, he will leave here by train for Jasper where he will join his wife and son. They will go on to the National Park tomorrow.

The minister was met at CNR depot by Harper Prowse, provincial Liberal leader, and Air Vice Marshal Hugh Campbell, air officer commanding Northwest Air Command.

## Race Horses Killed In Fire

RATON, N.M., Aug. 18.—(AP)—Flames were brought under control early today after sweeping through three barns at the La Mesa horse race track. Two stable men were severely burned.

Twenty thoroughbreds were destroyed, including a stud, La Bree, which Howard Lackey of Raton recently purchased from C. S. Howard for \$10,000.

Racing Secretary Harvey Foster said the damage to the barns would exceed \$20,000. He said he could not estimate the value of the horses lost.

The animals burned to death included Gold Ball and Shifty Jane, also owned by Lackey. They won stakes at Santa Anita last winter.

### MYSTERY CLEARED

Mr. Ray said the Kamloops drivers who had been over the road the day before had been worried over welfare of so many people who came from the east.

J. Alan Smith, manager of the caravan west of Jasper, said the road was not as bad on the way

## Army May Back Yellowhead Route

### Mayor Ainlay Says Military Arsenal Here Needs Road

KAMLOOPS, B.C., Aug. 18.—Edmonton's Mayor Harry Ainlay told 300 persons at a Yellowhead Route Caravan dinner here last night he is confident military authorities would like the road to be built to get out of there.

Mayor Ainlay was referring to the military importance of the Yellowhead Route west from Edmonton, which the caravan is promoting as a Trans-Canada artery.

The caravan rolled without trouble for 150 miles from Blue River to Kamloops yesterday, passing for miles along a road that seemed to be in a virtual botanical garden where the tall timber reminded many of the California Redwood country.

### OFFICIAL WELCOME

At last night's reception an official welcome was extended by Mayor James Moffat, who said Kamloops civic authorities and most of its citizens were almost 100 per cent behind the Yellowhead Route.

The chairman, George C. Hay, president of the Kamloops Board of Trade, who went to Jasper to join the Caravan, said that to him the trip had revealed vast resources of timber and agricultural lands 200 miles to the north of Kamloops.

Mayor Ainlay said the people of Kamloops would get most dollar for dollar from the Yellowhead route.

### COMMISSION WANTED

He said the association was broad-minded in its approach but would not accept any route as Trans-Continental until merits of the Yellowhead had been considered by a fact-finding commission.

"This is a national project and we should work it out as a united nation, not as divided provinces," he said. "The United States has 19 trans-continental highways. Surely Canada can have one and a good one."

Misunderstanding which arose at Jasper from the Kamloops delegates made a point of emphasizing condition of the road west of there was subject of some comment at the dinner.

### MYSTERY CLEARED

Mr. Ray said the Kamloops drivers who had been over the road the day before had been worried over welfare of so many people who came from the east.

J. Alan Smith, manager of the caravan west of Jasper, said the road was not as bad on the way

## Schools Expect Record Numbers

(Continued from Page 1)  
September by the public school board.

### NEW PUBLIC SCHOOLS

They are Alameda (eight rooms), King Edward Park (eight rooms), Forest Heights (six rooms), Sherbrook (eight rooms) and Grovenor (eight rooms). Three rooms are being opened in the old Glenora school on Stony Plain road and 128 street.

Separate school board will have two new schools ready by October or November in Bonnie Doon and Ritchie districts, and are building additions to four others—St. Alphonsus, Michaels, Mt. Carmel and St. Francis.

Probably only Mt. Carmel addition will be ready in time for school opening Sept. 1.

Altogether, there will be 76 schools operating in the city this year, 56 public schools and 20 separate.

Breakdown for public schools includes six high schools, 15 junior high, and 35 elementary.

### INCREASE IN ELEMENTARY

Main increase in new students is in elementary grades, an aftermath of the war years.

Last June, there were 10,419 pupils in public elementary schools, 5,204 in junior high, and 2,656 in high schools.

Total public school registration in 1942 was 14,117, compared with this year's estimate of 37,000 pupils.

Total number of public school teachers is 540, including new ones employed to take care of increased enrollment.

And school operations are expensive. Books are supplied free to public school students up to grade nine. BOOKS COST \$30,000.

School board appropriation for these textbooks is \$18,000 for this year.

year. In addition, supplementary books (library books) will cost \$12,000.

All new schools will have special provisions for lighting and ventilation. Each new school is being provided with a good auditorium-gymnasium, according to R. S. Sheppard, superintendent of schools for the public school board.

Non-resident students must pay \$30 a year in grades one to eight, and \$125 in grades nine to 12.

Board secretary-treasurer Harry G. Turner said today the gross budget for this year is \$7,605,221. Revenue includes \$34,785 in provincial government grants, and fees from an expected 500 outside-city students.

Separate school board will have two new schools ready by October or November in Bonnie Doon and Ritchie districts, and are building additions to four others—St. Alphonsus, Michaels, Mt. Carmel and St. Francis.

Probably only Mt. Carmel addition will be ready in time for school opening Sept. 1.

# Hutterites Given School Ultimatum

Department Edict Rules Group Must Deal With Gov't

Alberta Hutterite colonies must in future deal directly with the Provincial Department of Education in school matters and not with municipal school boards.

## I Spy...

By the Staff

### ON TOUR

Touring western Canada fra Dilworth, Montreal, general supervisor, international services, Canadian Broadcasting Corporation, arrived here today.

### NEW POST

Innovation with the Royal Canadian Naval units across Canada is appointment of gunnery warrant officers as training personnel, spokesmen for HMCS Nonsuch said today. Recently appointed to the Edmonton Naval unit was WO F. C. Short, who was transferred from HMCS Naden at Victoria. He will have charge of training which will specialize here in anti-aircraft gunnery.

### SENTIMENTAL JOURNEY

Sentiment dies hard in the racing fraternity and R. James "Jim" Speers has more than his share of it.

Visitor in Edmonton Mr. Speers took time out today to visit the Edmonton Exhibition Grounds to say farewell to the 40-year-old grandstand now being demolished. "I have seen many great races from this stand and some great horses win them," Mr. Speers stated.

Edmonton is one of the best racing centres in Canada, Mr. Speers said.

He has been visiting with his daughter at Jasper Park, and left today for Calgary where he will witness the running of the Alberta Derby Saturday.

### BACK FOR 'WHILE

A. P. Methune is pinch-hitting in his old job at the city health department while health inspectors have their holidays.

Mr. Methune retired as chief sanitary inspector at the end of last year. He's been busy this summer helping his son build a new home, but when the department issued the call for help, Mr. Methune quickly climbed back into the saddle.

## Tourist Bureau Proves To Be Popular Spot

Close to 2,000 persons in 602 cars have made use of the new provincial tourist information bureau at Macleod since it opened on Aug. 8.

### Traffic Signs For Theatre Road Are Ordered

Alberta government has ordered stop signs be erected at highway junctions near the new State Drive-in theatre in West Jasper Place.

No parking signs are also to be placed on the east and west sides of main highway 38 at entrance to the drive-in.

Similar orders were made in respect to Chinook Drive-in theatre at Calgary.

Incorporation of a new drive-in theatre at Calgary, known as Sunset Drive-in Theatre Ltd., has also been announced.

RELIGION is a family affair for Nixes from Barrhead, attending annual summer school of religion of Alberta Conference of United Church of Canada. School is being held at St. Stephen's College at University of Alberta. Mom (former Marg Lattier) Margie 2, Rev. Ernest Nix and 13-month-old Jamie relax in sun. Rev. Nix has had church at Barrhead for past two years.

## SUNNY McDOUGALL HILL SEES WORLD GO BY

Taking it easy these days is 68-year-old Walter Frain, 9608-101 avenue. Formerly a hotel clerk, but now unemployed, he sits on the Hill every day, reads paper, and relaxes in sunshine. He's like dozens of other Edmontonians who appreciate nature's beautiful North Saskatchewan valley from McDougall Hill every sunny day.

"I'm from England. Would you like to take me?" With smile as bright as sunshine, Mrs. S. J. Rowe asked Hulletin photographer who was shooting pictures on McDougall Hill. Mrs. Rowe, age 50, came here just one week ago from Britain to visit war-bride daughter at Bob Accord. Looking for job, she often stops on Hill, thinks it's "nicest part of Edmonton."

Two old railroaders are R. S. Bird, 9635-102 street and Fred Turton, 11341-126 street. Like so many other Edmontonians, they like to spend sunny summer hours chewing the fat and gazing over river from McDougall Hill benches and railings. Both retired from railroad employment, they met three or four years ago on "the Hill," see each other every summer, spend winter indoors. Bird is 71, Turton is 73 years old. They've been in Edmonton about 40 years each.

## Two Alberta Districts Assured of Bumper Crop

At least two crop districts in Alberta this year will harvest a bumper crop.

This was indicated today from a grain report issued by the Searle Grain Co.

From April 1 to August 16 seasonal rainfall for Alberta has been 36 per cent below normal.

But, the report stated, Alberta crop districts 15, High Prairie, and 17 at Lesser Slave Lake area, are

considerably above normal with prospects of good grain yields.

Crop districts 16 at Grande Prairie and 17 at Lesser Slave Lake were also reported normal with all other districts listed as "below normal."

The three prairie provinces combined have had a total rain fall of 85 per cent of normal.

Manitoba was reported with rains of 65 per cent below normal.

But bumper crops in Manitoba seemed assured, the report stated.

Crop districts 1, 2, 3, 5, 10, 11 and 14 in Manitoba are reported to be above normal condition.

Three other districts are said to be normal and with the remainder below average.

Saskatchewan had received rain fall 36 per cent below normal, said the report.

Consequently only three crop

districts were reported in normal condition with others just about or below par.

Experiments show that excessive smoking will lower the temperature of a person's feet by as much as 10 degrees.

## City Air Services Will Undergo Test

Real test of success of the Edmonton-to-Vancouver direct TCA route will come this winter according to A. C. McKim, Montreal, vice-president in charge of traffic for the airline.

Traffic over the route at present is "quite satisfactory" according to Mr. McKim. He added that winter testing from Edmonton will be the real test.

TCA is enjoying a "very successful year" with revenue showing an increase between 30 and 40 per cent.

Trans-Atlantic traffic also is being well maintained, Mr. McKim stated.

The company is looking forward to an exceptional tourist traffic this winter to the West Indies. This service was inaugurated last year.

No new routes are contemplated at present, and no additions are being made to the company fleet of 30 DC-3 and 30 North Star machines.

### Clearing House

Edmonton's clearing house figures showed another substantial gain this week when a total of \$18,739,661 passed through, as compared with \$17,214,436 for the same week last year.

### Park Display

A health and recreation display will be presented by the YMCA Sunday afternoon at Elk Island Park.

## Long Distance Too Slow

The provincial government would perhaps do well to pay serious attention to the complaints in this city about the apparent breakdown in the long distance telephone service.

One such complaint, a fair example of many, appears in the letter column on this page.

Here is an important business firm, whose transactions depend upon ready and rapid communication with all parts of Canada, coming out with a plain statement that the long distance service has become intolerable.

This firm states that calls to Athabasca, Grande Prairie, Lloydminster, Calgary, Regina, Winnipeg and points in the East take from one half hour to two hours and sometimes even longer to complete.

These delays cost business organizations money.

They are a handicap against the firms operating in the area.

But more than that, this dilatory service definitely militates against the establishment of new industries in Alberta.

Any firm contemplating location in this province naturally canvasses every factor that will help or hinder them.

And a slow long distance service may be just the factor that would keep new industries out.

For rapid communication is the life-blood of modern business.

Sometimes delays of hours or even minutes can be disastrous.

If such delays are caused by inefficient operation, the government department in charge should make drastic changes.

If they are caused by insufficient lines, more lines and equipment should be provided.

After all, Alberta has passed the horse and buggy stage.

And if the provincial government assumes the control of long distance telephone, it must undertake to give a service commensurate with the need.

Being Silly About Exposure

Anyone who has cautiously sampled Montreal's night life will be astounded to learn of the fuss that is being kicked up in that city about the street wear of Montreal women.

The highly unpleasant weather which the east suffers every summer, in marked contrast to the equable temperatures of the West, has caused many females, it is said, to appear on Montreal streets in shorts and swim dresses and other articles of apparel both airy and revealing.

This sartorial nonchalance has caused a wave of horror to sweep over the citizens of Canada's largest but sometimes most small-town city.

Burgesses have cast a widened eye upon bare midriffs and have fled with flaming cheeks.

Staid business men have caught a glimpse of dimpled knees and have fainted in their tracks.

It is one thing, it seems, to view near nudity in Montreal night clubs but another thing entirely to see a few patches of bare skin on the streets.

The campaign against what is coyly called the "undue summer exposure of female shoulders on the streets" has reached such frantic proportions that the suggestion has been solemnly made that

School Grants Are Too Small

School grants made by the provincial government to municipalities are out of proportion to the increased cost of operating schools.

This is the claim of the Union of Alberta Municipalities and the facts appear to bear out the contention beyond any question.

In recent years these provincial grants have been increased in varying proportions, in some instances quite substantially.

But they have not been increased to the point of meeting the province's share of rapidly rising costs.

The cost of operating schools, the Union says, has more than doubled in the past five years.

In some municipalities these costs absorb more than 50 per cent of the total tax collected.

Frequent changes in the curriculum are responsible for some of this increased cost, a matter for which the province should definitely hold itself accountable.

ODDS AND ENDS

By Harold L. Weir

Some Observations On

Decorating a Domicile

Anyone who has passed by my flat lately at night, any time during the past month, may have heard hollow groans and agonized grunts emanating therefrom.

If they have heard such distressful sounds, they have not noticed that it was me.

The grunting and groaning and moaning and sobbing and sighing was simply me, paint brush for instance, decorating my domicile.

I think any right-minded man will admit that most of the horrors and vicissitudes of this life emerge from what we may call Bright Ideas.

Alexander Graham Bell, for example, was hailed in his day as quite a lad. Yet think what the telephone has done to the human race.

Radio, contract bridge, marital cocktail and all the other things that are all Bright Ideas.

Yet think what humanity has suffered from them.

Decorating my flat was also a Bright Idea.

May the good Lord defend us from such follies.

Conceived In Folly

All started, I suppose, that fatal night when I tried to drive a nail to hang a picture and a bunch of plaster fell upon me.

"I must do something about that right away," I muttered to myself.

Several months later, a visitor remarked upon the unique and complicated design in the walls of my living room. I had to confess it was a pattern compounded of plaster cracks and damp stains.

Whereupon I said:

ice definitely militates against the establishment of new industries in Alberta.

Any firm contemplating location in this province naturally canvasses every factor that will help or hinder them.

And a slow long distance service may be just the factor that would keep new industries out.

For rapid communication is the life-blood of modern business.

Sometimes delays of hours or even minutes can be disastrous.

If such delays are caused by inefficient operation, the government department in charge should make drastic changes.

If they are caused by insufficient lines, more lines and equipment should be provided.

After all, Alberta has passed the horse and buggy stage.

And if the provincial government assumes the control of long distance telephone, it must undertake to give a service commensurate with the need.

Being Silly About Exposure

Anyone who has cautiously sampled Montreal's night life will be astounded to learn of the fuss that is being kicked up in that city about the street wear of Montreal women.

The highly unpleasant weather which the east suffers every summer, in marked contrast to the equable temperatures of the West, has caused many females, it is said, to appear on Montreal streets in shorts and swim dresses and other articles of apparel both airy and revealing.

This sartorial nonchalance has caused a wave of horror to sweep over the citizens of Canada's largest but sometimes most small-town city.

Burgesses have cast a widened eye upon bare midriffs and have fled with flaming cheeks.

Staid business men have caught a glimpse of dimpled knees and have fainted in their tracks.

It is one thing, it seems, to view near nudity in Montreal night clubs but another thing entirely to see a few patches of bare skin on the streets.

The campaign against what is coyly called the "undue summer exposure of female shoulders on the streets" has reached such frantic proportions that the suggestion has been solemnly made that

School Grants Are Too Small

School grants made by the provincial government to municipalities are out of proportion to the increased cost of operating schools.

This is the claim of the Union of Alberta Municipalities and the facts appear to bear out the contention beyond any question.

In recent years these provincial grants have been increased in varying proportions, in some instances quite substantially.

But they have not been increased to the point of meeting the province's share of rapidly rising costs.

The cost of operating schools, the Union says, has more than doubled in the past five years.

In some municipalities these costs absorb more than 50 per cent of the total tax collected.

Frequent changes in the curriculum are responsible for some of this increased cost, a matter for which the province should definitely hold itself accountable.

ODDS AND ENDS

By Harold L. Weir

Some Observations On

Decorating a Domicile

Anyone who has passed by my flat lately at night, any time during the past month, may have heard hollow groans and agonized grunts emanating therefrom.

If they have heard such distressful sounds, they have not noticed that it was me.

The grunting and groaning and moaning and sobbing and sighing was simply me, paint brush for instance, decorating my domicile.

I think any right-minded man will admit that most of the horrors and vicissitudes of this life emerge from what we may call Bright Ideas.

Alexander Graham Bell, for example, was hailed in his day as quite a lad. Yet think what the telephone has done to the human race.

Radio, contract bridge, marital cocktail and all the other things that are all Bright Ideas.

Yet think what humanity has suffered from them.

Decorating my flat was also a Bright Idea.

May the good Lord defend us from such follies.

Conceived In Folly

All started, I suppose, that fatal night when I tried to drive a nail to hang a picture and a bunch of plaster fell upon me.

"I must do something about that right away," I muttered to myself.

Several months later, a visitor remarked upon the unique and complicated design in the walls of my living room. I had to confess it was a pattern compounded of plaster cracks and damp stains.

Whereupon I said:

ice definitely militates against the establishment of new industries in Alberta.

Any firm contemplating location in this province naturally canvasses every factor that will help or hinder them.

And a slow long distance service may be just the factor that would keep new industries out.

For rapid communication is the life-blood of modern business.

Sometimes delays of hours or even minutes can be disastrous.

If such delays are caused by inefficient operation, the government department in charge should make drastic changes.

If they are caused by insufficient lines, more lines and equipment should be provided.

After all, Alberta has passed the horse and buggy stage.

And if the provincial government assumes the control of long distance telephone, it must undertake to give a service commensurate with the need.

## And Nothing Can Be Done About It

Future for Plastics If Measures Taken

One of the most interesting industrial developments in recent years has been in the field of plastics.

These products of industrial chemistry now form a tremendous list, with an amazing number of possibilities.

Some are subject to heat, some resist heat. Some lend themselves to moulding into shapes of all sorts, some are almost indestructible.

They provide thousands of articles. They have reduced the cost of many things, and provide. Yet as matters stand, plastics are pretty much of a curse to most homes and people.

Plastic dishes are sold which are supposed to be unbreakable. But the first time they are dropped on a table, some will crack. Others develop cracks during ordinary use. Others go out of shape if used with heat.

You may find an attractive cooking set, and then the first time you try it at an ordinary kitchen, there should be some colored bands melt off and the set is ruined. You try a plastic container and the first time you squeeze it, it breaks.

Thousands of boxes, bags, cases and utensils are bought every day of the year to replace the thousands that have gone to pieces under very ordinary treatment.

Avoiding Entirely

Some people are avoiding them entirely. Others find that just when they need their plastic article the most is the time it becomes useless.

Eventually the public is going to turn against this whole range of products. That would be a major misfortune, because the plastics industry is not only important, but plastics themselves are needed for the right purpose.

There are no arguments about the claim that plastics, even in their present form, can provide almost any physical or chemical property required.

Plastics can be made which will stand any normal amount of heat without injury. Plastics can be moulded all over the place without breaking. Plastics can be made rigid, or pliable.

Simply name it, and the experts can produce it.

It would seem, however, that the proper plastic is not always used. Probably it is a matter of training the manufacturer in technique. In some cases it has been a lack of sufficient testing.

For example, one company found that it had to replace a certain plastic part in a machine it was marketing because it had not secured the most suitable type of plastic. When it was replaced, the particular machine had the best part possible in its construction.

## Letters to the Editor

Long Distance Service Poor

Editor, Bulletin.—Your editorial on the state of long distance telephone service in Edmonton for the past two years.

It is a wonder if your paper is doing a wonderful job and I hope you keep it up.

I am wondering if anything can be done to bring the deplorable long distance telephone situation into the limelight. As you probably know it is practically impossible to get a long distance call through in this city.

It is a wonder if your paper is doing a wonderful job and I hope you keep it up.

Garbage Wagons

Editor, Bulletin.—Don't you think it's about time our beautiful city was a little more modern as regards garbage wagons?

The garbage is exposed to all the elements of the weather as wagons go up and down streets and on windy days is blown hither and thither.

No wonder our city is not free from disease. Don't you think they are more likely to carry infection than the "poor old bays" we are hearing about?

I have seen in other cities a rolling cover which slides up and down easily as the refuse is collected.

Refuse is collected.

Refuse is collected.

Refuse is collected.

Refuse is collected.

Refuse is collected.

Refuse is collected.

Refuse is collected.

Federation Of Blind

Editor, Bulletin.—Please insert the following:

Mr. G. Benson, 9620-106A Avenue, Edmonton, Alberta.

Dear Mr. Benson: At the general meeting of the Club held June 20, in Buffalo Hall, the following resolutions were passed unanimously:

1. "Moved that those persons who are members of another organization of the blind whose policies conflict with the policies of the Edmonton Club of the Blind, may not serve on the Executive Committee."

2. "Moved that Mr. Benson be asked to resign as a Director of the Edmonton Club of the Blind."

I have been instructed by the President to pass this information on to you.

Yours truly, A. GEMMELL (Secretary).

The Canadian Federation of the Blind is a national organization and the Federation reads in part as follows:

"(A) To unite the blind in a brotherhood and advance in every lawful way the social and economic welfare of the blind and co-operate with any or all existing institutions, societies and agencies for the furtherance of the objects of the federation and to urge upon the federal, municipal and provincial governments the necessity and justice of legislation granting adequate pensions to the blind."

G. BENSON, President, Edmonton Branch, 9620-106A Ave., Edmonton.

Looking Backward

1889—60 Years Ago

The gutter question is agitating the minds of the farmers throughout the prairie sections of Manitoba and the territories.

Herbert H. Greenfield, former premier of Alberta and now its agent-general at London, is en route to that province on a visit.

1939—10 Years Ago

Paris: Poland's determination to be "Rumanized" or to participate in any international conference to settle the Danzig question has been fully endorsed by Great Britain and France during negotiations in the past few hours, it was understood here today.

London: An informant close to the war office said today that two classes of regular army reservists have been ordered to hold most of their personal war-time equipment until Oct. 15.

1909—40 Years Ago

A rumor emanating from London says that the future of the province of Ontario may be involved in the first governor-general of South Africa.

1889—60 Years Ago

The gutter question is agitating the minds of the farmers throughout the prairie sections of Manitoba and the territories.

Herbert H. Greenfield,

TENSE MOMENT above is one of many from new film "Caught," which opened today at Empress Theatre. English actor James Mason stars in new picture, playing part of doctor in his first American movie. Gripping story also stars Barbara Bel Geddes, playing part of lovely ex-model married to one of world's wealthiest men. With "Caught" at the Empress is "Law of the Golden West," with Monte Hale.

## Mason Scores Hit In American Film

English Actor Starring in 'Caught', First U.S. Movie

James Mason, popular English actor, plays his first American film role in "Caught," which opened today at the Empress Theatre along with Monte Hale in "Law of the Golden West." Two American stars who were recently named by the exhibitors of the nation as two of the best box-office bets of the coming year are also featured with Mason.

They are Barbara Bel Geddes and Robert Ryan who, with Mason, form the dramatic triangle in the new Empress film released by M-G-M and opening this week at the Empress Theatre.

For what studio and for what picture Mason would make his initial American film was for two years Hollywood's hot question. It was finally resolved when the much-demanded star made his American screen play, adapted from the novel "Wild Calendar" and liked it so much that he signed for the role of pediatrician in "Caught."

In GLAMOROUS ROLE, Miss Bel Geddes, current Academy Award nominee, has three successful films behind her in "The Long Night," "Remember Mama" and "Blood on the Moon."

In the new offering she plays her first glamorous role as a lovely ex-model who marries one of the world's wealthiest men.

Robert Ryan has a long list of hits to his credit, among them, "Crossfire," "Act of Violence," "The Boy With Green Hair" and "The Set-Up."

"Caught" was directed by Max Opulsi ("Letter from an Unknown Woman") and was produced by

## CURTAIN TIME

OPENS FRIDAY

Today—Final Showing of the Comedy Supreme: "JOHN LOVES MARY"

## U.K. Experts Draw Up Dollar Crisis Tactics

### DOG DROWNS PAIR OF GOATS

LOWELL, Mass., Aug. 18.—(AP)—A huge dog was reported yesterday to have drowned two goats in a stream by lunging at them with his forepaws.

John Simons told police his wife saw the dog force one goat under. Police found two drowned goats in the stream.

### Chart Waters

OSLO.—(CP)—Norwegian scientists have been using "echo sounders" to chart coastal bays and fjords this summer. The instrument computes water depths by the length of time taken for sound to echo from the bottom.

## Inside Hollywood

By Bob Thomas

HOLLYWOOD.—(AP)—Teresa Wright, who split with producer Sam Goldwyn because she wouldn't make an appearance tour, says she's willing to meet the public now.

The star's contract with Goldwyn ended when he claimed she was uncooperative about making a publicity tour. She countered that he gave her only two days notice before she was to leave—at Christmas time.

Miss Wright is now working in "Daybreak," her first film since the Goldenweek. Will she make appearances for it? "Certainly," she answers. "If the producer will give me more than two days notice—and not at Christmas time."

The actress will probably end her way. The producer is Niven Busch, who also happens to be her husband.

### MID-WEEK MEDLEY

"Mrs. Miniver," the pillar of virtue in the famed wartime movie, will shock her fans in the forthcoming sequel. She will have some extra-martial romance in the plot of the new film, which stars Greer Garson, Walter Pidgeon and John Hodiak.

Elmer Williams received nine flowers at the birth of his baby to supply the whole town at the hospital, which she did. From display was a final accounting book with a copy of herself on a diving board. It came from her boss, Louis B. Mayer.

### CAPSULE REVIEW

"Once more, my darling, tell me a story," commands a movie actor-director (Robert Montgomery), who turns army snail to face down a jewel thief (Montgomery).

### FOOT WARMERS

### Hat Makers Lay Siege To Hatless Fad

NEW YORK, Aug. 18.—(AP)—Hatters claimed today that more and more men are wearing hats to keep their feet warm. The hatters are alarmed by the hatless fad.

Brand Names Foundation, Inc. quoted Dr. Paul H. Simon, an ear, nose and throat specialist, as saying the body was a "heat machine" and the head a "functional radiator." By covering the head, the human being can stop the flow of heat from his feet, the foundation said.

It added that tests by the institute for scientific research showed that a hatless man who walked in blocks in New York City collected five times as many germs as a man who wore a hat.

The report claimed success showed the "hatless" fad was slowly passing in America.

### Alberta Musician Takes B.C. Post

CALGARY, Aug. 18.—(CP)—Lawrence H. Cludney, organist and choir master at Grace Presbyterian Church here for the last two years, has accepted a similar position at St. Andrew's Wesley United Church in Vancouver. It was disclosed today he will take up his position at the west coast in September.

Mr. Cludney is president of the Alberta Music Festival Association, and vice-president of the Alberta Registered Music Teachers' association. He has been lecturing at the University of Alberta summer school in Edmonton.

These officials will discuss the unbalanced trade between the United States dollar and British sterling area which has left British an desperately short of dollars.

Official sources said the four-part document comprises:

1. A study of the background and causes of the critical imbalance between the dollar and sterling areas.
2. A review of what each of the three governments has done to meet and redress that imbalance.
3. A close look at the situation as it exists now, underlying all the implications of a failure to agree on a solution.
4. A series of proposals aiming broadly at achieving some kind of world pattern which would allow a free flow of currencies between the dollar and non-dollar sections.

Informants said the British document attempts to prove that the dollar crisis is not British or American, but a global crisis.

# Eskimo Scouts Dicker With Stampeder Players

CUNNINGHAM BEATS OUT JOE FISHER

BRANDON, Aug. 18.—(CP)—Les Cunningham, coach of San Francisco Shamrocks for the last two seasons, has been appointed mentor of Brandon Wheat Kings of Manitoba Junior Hockey league. It was announced yesterday.

Brandon job, considered among the prize plums in the country in the junior coaching line, was held last season by Bill McKenzie.

Cunningham received the nod over several other nominees, who remained unnamed officially although it is believed that one Joe Fisher of Medicine Hat

## Keir Rumored Among Those Being Sought by Edmonton

By Dick Beddoes

Edmonton Eskimo football scouts are on the prowl for additional playing talent. And in recent weeks these operators have done some under-cover finagling in an effort to lure players from—of all people—Calgary Stampeder ranks.

Yesterday Stampeder coach Les Lear revealed that Eskimo scouts have been "bothering a number of Calgary players by telephone and everything else."

Esk manager Al Anderson denied any knowledge of attempted raiding in the Calgary camp by the Edmonton. Said he: "I know nothing about it."

But apparently some dicker has been done about Edmonton officials and certain Calgary young men. A source close to Lear disclosed last night that guard Ken Keir is among those being coveted by the local Eskimos.

Keir is a former Calgary junior who was an all-star freshman center at the University of Washington last fall. He is drilling for a guard post with the Stampers but has not yet been signed by the Grey Cup champions.

Eskimos, admittedly shy of proven players, are reported to have their sights set on Dave (Baldy) Tomlinson and Bill Poller. This pair of ex-Calgary players are important hands in placing the Stampeder brand on the Grey Cup last year.

And rumor has it that if the Eskimos dangle enough money for bait, Tomlinson and Poller will leave Stampeder ranks. However, Lear announced that none of the Calgary regulars were considering leaving at this stage and drifting to Edmonton.

One thing is certain. Even if Eskimo scouts are successful in their attempt, the incident will serve as a blow to the already frosty Eskimo-Juniors rivalry.

Parliament on the Eskimo program at the moment is the usual fall Sunday night at the Driveway Theatre. Anderson and Lear are working on the program, which includes presenting the team to the public and showing the 1948 dominion championship game between Calgary and Edmonton.

Everyone is looking for the Eskimo game to be a sell-out. The show commences at 8:30 but the gates will open an hour before that time.

HOT OFF THE GRID... Edmonton's executive charged into the press line yesterday and refused to admit this reporter to the Eskimo dressing room. The reason, a story on the football club in Wednesday's paper which enumerated the aches and pains currently suffered by several players.

This executive felt that such a revelation would hurt public opinion against the Eskimos and damage their chances of getting white-hot support.

Nothing pertinent to football could be more ridiculous.

Gordon (Red) Smith, a 215 pound guard with a red moustache, was the star of the day. The Eskimo game will be played on Sunday at 10:00 a.m. at the stadium.

Has anyone seen the mosquito who bit Pat West?

Blast Ends Swimming TOPE, N.Y.—(CP)—Variations at this seaside town were the result of a local religious plan exploded Sunday. The plan called for a day of fasting and prayer. The water was a black grey film.

The Indian father and his wife were seen leaving together with their car.

Rogers to Stay With Roughriders REGINA, Aug. 18.—(CP)—Bill (Buck) Rogers, who announced Tuesday he had decided to leave the Saskatchewan Roughriders and return to Ottawa, will remain with the Regina club for the rest of the season. Don Macdonald, Roughriders' coach, said yesterday.

"Buck has changed his mind. His announcement was a little premature," Macdonald said. "Buck was seriously thinking of going back to Ottawa to continue his education but he has decided to stay with us and he has decided to stick with the Riders."

MIMICO, Aug. 18.—Mimico defeated Owen Sound 14-12 in an Ontario lacrosse senior game last night.

ated Californians Earl Cochell and Herb Felt. Felt, 6-2, 175, and South Africa's Eric Stuurman and Eugene Funtin had to go an extra mile to eliminate Sam Mitchell, a British player, and South Africa's Eric Stuurman and Eugene Funtin had to go an extra mile to eliminate Sam Mitchell, a British player, and South Africa's Eric Stuurman and Eugene Funtin had to go an extra mile to eliminate Sam Mitchell, a British player.

Robert Abdelmassid and Paul Hardy were the top scorers in the round of eight after tussling hard and long with Irvin Dorfman, New York, and Bill Vogt, Princeton, 6-2, 165, 4-2, 6-2, 6-2.

Jack Davis, cupper, Gianni Cuccini and Marcello Del Belio survived by beating Art Larch, San Francisco, and Dick Savitt, East Orange, 6-4, 2-6, 6-3, 6-4.

MEN WHO KNOW racing best are of opinion that Gordon Glisson (left) has same coolness, skill and judgment of famed Eddie Arcaro, four time Kentucky Derby winner.

## Tigers' Win Over Bombers Costly

HAMILTON, Aug. 18.—(CP)—Hamilton Tigers, Eastern Canada finalists last year, defeated Winnipeg Blue Bombers 9-8 in an exhibition football game here last night. Tigers pulled the game out of the fire with a breaking point when Doug Smith kicked a single to the deadline with about one minute to play.

It was a close finish in the last game of the year for the Bombers who missed the western Canadian playoffs last year for the first time in 17 years.

COSTLY WIN And it was a costly victory for the Tigers, defeated 25-1 by Ottawa Roughriders in an exhibition at Ottawa last Saturday. Merle Hayes, Tigers' hard hitting quarter, suffered a severe injury in the first quarter when he was tackled hard by his own end.

About 1000 football-hungry fans turned out for the game, considered just a tough scrimmage for line players. Play was ragged at times and Winnipeg appeared to have the game in the bag with an 8-0 lead midway through the third quarter, but Tigers came to life and gained victory in a driving finish.

It isn't known how long the American backfielder will be out of the game.

Young Campbell, a star at the American backfielder, was injured just a tough scrimmage for line players. Play was ragged at times and Winnipeg appeared to have the game in the bag with an 8-0 lead midway through the third quarter, but Tigers came to life and gained victory in a driving finish.

Team will play an Edmonton game at 8 o'clock tonight.

STRETCHING A POINT is Joe Lafata of Giants as he attempts to score from first base on Bill Rigney's double against Braves at Polo Grounds. Catcher Del Crandall received Alvin Dark's throw in time, put an end to his raising antics of New York first baseman.

## Barrhead Could Upset Oilers' Tournament Plans

MYSTERY LADY'S BET BUSTS TRACK BANK

ATLANTIC CITY, N.J., Aug. 18.—(AP)—Atlantic City race-track officials are hoping a certain mysterious lady stays away from their track.

She cost the track \$4,700 last Saturday when she calmly dumped \$21,000 on heavily-favored Hill Prince, a 2-to-5 shot. The two-year-old romped in first and the lady's "show" bet created a \$4,700 minus pool.

New Jersey law requires the track to give the better back at least 10 cents on a dollar or \$2.20. And that's where the "minus pool" comes in.

Six or seven years ago a "Lady in Red" appeared to plague eastern seaboard tracks with her huge bets on favorites. On several occasions, this lady, too, created minus pools to the chagrin of race-track operators.

Barhead, slight favorite on their home grounds, will meet Westlock Monday, with the victor slated to look horns with Gibbons in the second round.

MAYERTHORPE LOSES Other top-kicks in the Edmonton Senior B wheel, came from behind yesterday to edge Mayhew 6-4. Red Sarafin, Edmonton Maple Leaf junior hurler added to the Toronto roster, started for the Edmonton square, giving the home team a 2-1 victory after seven innings.

Don Crough, South Side Junior, came from right field to relieve Sarafin with the score tied 4-4 in the eighth and set Mayhew's hitters down in order.

Came Texaco's hot of the eighth, left fielder Red Kasing was safe on an infield error. Catcher Dan Danilovich layed down a bunt single and runners advanced to second and third on pitcher Harry Martin's error on an attempted pick-off.

First basemen Tom Foran then drove in the winning run with a long fly to left field. Kasing scampering home from third.

Grant McFarlane followed with a single scoring Danilovich.

CROUGH BEARS DOWN Mayhew's catcher Keith Craig Traylor was hit by the score after one out, but Crough then whizzed three-straight strikes past Traylor, and the game's next batter went out on an infield fly.

Meanwhile, a 23-year-old pitcher—Ken Crozier—stole the show yesterday, grabbing a 7-4 win for the Oilers. He allowed only 2 hits during his 5-inning stay.

Ken is scheduled to meet Oilers today.

Bob Tronnes threw a one-hit shutout as Gibbons stopped Calum 4-0.

Mayor Charlie Vull has declared his headquarters during the second round, which concludes tonight.

"Gives the people a chance to have some fun," explained the genial mayor. "Besides how else would I get to watch the ball game?"

Eight teams—Barhead, Edmonton, Westlock, Calum, Gibbons, Naman, Rivette, Qu'Appelle, and Mayhew—are participating.

**Ingredients:** One cup, peas, one cup, butter, one cup, onion, one cup, carrot, one cup, celery.

**Directions:** Boil peas for 10 minutes. Sauté onion, carrot, and celery in butter. Add peas and cook for 10 minutes.

## Fresh Mushrooms Available Locally

Tips From Distributors About  
Care, Selection of Mushrooms

By Jane Scott

Now that mushrooms—fresh or canned—are available the year round, try these favorite recipes on your family.

When you buy fresh mushrooms in market, look for those commercially packed in standard baskets. Never buy from unreliable sources. Choose mushrooms that are firm, clean, and from white to deep cream. Be sure the caps are free from blemishes and not dry. For absolute safety buy only from reliable dealers.

Keep mushrooms unwashed in a cool dry place. We like to keep them wrapped in waxed paper or in a refrigerator bag in the vegetable compartment of the refrigerator. Plan to use them soon after buying. Use only when very fresh.

Just before using mushrooms wash them well in running cold water. Then the mushrooms

of the stems. Then the mushrooms

Canned mushrooms are a convenient and healthy food. They are available in a variety of sizes and flavors. Remember that canned mushrooms have been trimmed and washed.

**SOUR-CREAM GRAVY**

**Directions:** Boil peas for 10 minutes. Sauté onion, carrot, and celery in butter. Add peas and cook for 10 minutes.

## Tender Tasty Lamb Has Appetite Appeal

By Jane Scott

No one can deny the appetite-appeal of broiled lamb chops or roast leg of lamb, but why wait for a special occasion to enjoy the fine flavor of lamb?

Of the many lamb dishes that are equally delightful although less well known, juicy ground lamb patties add variety to everyday menus that make them seem company planned.

Purchase less tender cuts of lamb that grinding makes lovelier. As with all fresh meat, keep well-chilled until ready for cooking. Combine chilled ground meat with bread crumbs, milk, eggs and seasonings and shape into large 4-ounce "meatloaf" patties.

For a novel flavor twist, add a teaspoon of chopped fresh mint to a pound of ground meat mixture.

The lamb patties are tempting fare whether pan fried or oven broiled. You'll want to try both methods of preparation.

To pan-fry, brown patties with a very small amount of fat in a heavy skillet. Turn lightly with a pancake turner only once. Keep the meat juices in the patty on the pan and avoid pressing down on the meat when turning. Cover

with a lid. Turn patties over and cook about 10 minutes. Serve with mint jelly added for extra flavor.

**MINT SYRUP**  
**Ingredients:** One-half cup brown sugar, one-half cup water, 3 tablespoons lemon juice, 3 tablespoons mint jelly.

**Directions:** Combine ingredients. Cook in a saucepan for 10 minutes.

**ANGEL'S DELIGHT**  
**Ingredients:** One cup, angel's delight, one cup, butter, one cup, onion, one cup, carrot, one cup, celery.

**Directions:** Sauté angel's delight, onion, carrot, and celery in butter. Add butter and cook for 10 minutes.

# God's Goodness Banishes Sorrow

With True Belief Sorrow Makes Better, Finer Person

The Bulletin continues today publication of a condensation of the widely-acclaimed book, *A Guide to Confident Living*, by Dr. Norman Vincent Peale. Dr. Peale, noted Protestant evangelist, has been minister of Marble Collegiate Church in New York since 1932. He has achieved impressive results as a pastor by forging a link between religion and psychiatry to give happiness and success for thousands of people. Dr. Peale's principles for confident living will appear in 17 daily chapters. (Copyright 1940, Prentice-Hall Inc.)

By Norman Vincent Peale

## CHAPTER 15

Sorrow is a great shock and its effect on anyone, one way or another is profound.

It may make one a bigger and finer person, or it may cloud the mind and dull the spirit. It may dissipate enthusiasm and destroy incentive.

In short, one must know how Versailles. I am sure she eagerly followed. As she loved to travel and used to write enthusiastically that she was having a glorious time and only wished we could be with her, so I believe that though she is dead, a consolation of beauty. One rainy night she fell asleep in the fountains of Versailles. Like myriads of diamonds in the sunlight, the fountains played to the delight of my mother.

She was a great traveler and visited many countries. She was in touch, a consolation of beauty. One rainy night she fell asleep in the fountains of Versailles. Like myriads of diamonds in the sunlight, the fountains played to the delight of my mother.

After she died, I was given me comfort to think of her in being taken by God's hand and hearing him say, 'Come into me, I will show you more marvelous fountains than those you once saw at Paris.' After she died, I was given me comfort to think of her in being taken by God's hand and hearing him say, 'Come into me, I will show you more marvelous fountains than those you once saw at Paris.'

After she died, I was given me comfort to think of her in being taken by God's hand and hearing him say, 'Come into me, I will show you more marvelous fountains than those you once saw at Paris.'

After she died, I was given me comfort to think of her in being taken by God's hand and hearing him say, 'Come into me, I will show you more marvelous fountains than those you once saw at Paris.'

AERIAL TRICKERY is performed by world's aerial acrobatic champion, Betty Skelton, 22, of Tampa, Fla., as she thrills crowd at air show in Gatwick, England. She cuts a tape with wing of plane while flying only 15 feet from ground.

## East Grading System Aiming at Better Milk

TORONTO, Aug. 18.—(CP)—Agriculture Minister Kennedy said last night that a new milk grading system aimed at making Ontario dairy products "the best in the world" is scheduled to go into effect in Ontario next year.

He told the Canadian Press that the Ontario government has been working for three or four years on a program intended to enable Ontario farmers to produce high-quality milk from well-cared-for free cattle.

The work, already well-advanced, includes, he said, the use of the best methods now known of breeding and raising cattle, and a system calling for absolute cleanliness in handling milk.

Still under consideration is the grading method, which would involve changes in ways of determining type of milk. Mr. Kennedy said he believes the plan would involve no general price increase to consumers.

The system under study is that used in New York state, where milk is graded A, B and C. In all, Mr. Kennedy said, the plan would involve no general price increase to consumers.

Still under consideration is the grading method, which would involve changes in ways of determining type of milk. Mr. Kennedy said he believes the plan would involve no general price increase to consumers.

## LE JAZZ HOT HEATS BEBE

NICE, France, Aug. 18.—(UP)—Bebé Shopp, Miss America of 1948, cooled off with a swim at Antibes on the Riviera after an evening of jitterbugging at a harvest festival.

Her description of the Frenchman on the dance floor: "A little more pumping and a bit jump but otherwise just like home. The French really go all out for jitterbugging... where?"

A special civic committee studying the problem today recommended to city council that the plan be submitted to a plebiscite.

The by-law which would be put into effect January 1, 1950, proposes that all residents of Calgary shall be liable to collect tax from each non-resident over the age of 21, to pay the balance of the cost of hospital services provided to non-residents, at the rate of \$15 a year from heads of families and \$10 per annum from single persons.

Employers would be required to deduct the non-resident payments from their salaries.

## Broadway Angels Becoming Scarce

Actors Equity Association 45 West 47th Street New York, N.Y.

Gentlemen: During the past six months, reputable producers have announced approximately 50 new productions for the fall season, and yet here it is the middle of August and you can count those actually in rehearsal on the fingers of one glove.

Broadway, of course, knows what the trouble is—money, or rather the lack of it. It knows that, because of one thing or another, Broadway's angels have folded their wings, and that a producer who auditions a show for a group of potential backers these nights is lucky if he raises enough to pay for the canapés and cocktails.

Obviously, what the legitimate theatre needs most right now is a new set of angels who are willing to gamble on the productions that are already on the boards. And if you're inclined to listen, I can tell you where you'll find this new set of angels: in the theatre district, green folding money, who are not only willing but actually eager to take the chance.

KNOW BY SIGHT And you won't have to look far. These gentlemen have their offices in Broadway, and if you don't know them by name you undoubtedly know them by sight. Yes, I'm talking about the ticket agents.

To hear them tell it, the reason they're anxious to bankroll certain productions is because they're fed up with taking the rap for on paper—to explain the institution

certain thriving producers, theatre owners, company managers and box office treasurers. They're unhappy about the bad notices they've been getting lately, and for a change would like to buy blocks of tickets at box office prices in advance of production and are prepared to "eat" those tickets when they go sour.

REMOVE BAN To make this possible, Equity of course would have to remove its ban on the "buy." And, begging your pardon, it's about time. Though the experience would be worthy in motive, what resulted from it, like Prohibition, is a matter of record and regret.

As everybody knows, bootleg tickets to some of the big hits this season have sold for as much as \$50 a seat—several times as much as the public paid for a "Follies" or a "Show Boat" during the years of the "buy."

A lot of us, of course, know the scandalous story behind the ticket scandal—certainly I do. But to put the ill-making details on paper—to explain the institution

## FIREMEN RED-FACED

FELIX TOWNE, England, Aug. 18.—(UP)—The firemen of Felix TOWNE, England, had faces as red as their fire engines. Their fire engine burned up last night while they were fighting a blaze in a nearby village.

Of "red" and how it's melted down—well, that would involve blowing the whistle on a lot of guys I've known and been around with for years, and for reasons I won't bore you with, I'm not disposed to play "cup-of-tea."

As the owner of a theatre, I get to see most of the musical scripts that are turned out these days, and in the past few months I've read at least five which shape up as potential box-office hits.

But, so far, not one of them has ordered a dress or a stick of scenery because the producer hasn't been able to dig up more than half of the necessary money.

MORE EMPLOYMENT It's my belief that if the ticket speculation, if given the chance to operate on pre-opening ticket buys, would complete the financing of these shows, and five musical productions, gentlemen, mean the employment of close to 1,000 actors, dancers, musicians, stagehands and other help around the theatre.

And remember, I'm only talking about musicals. I understand that at least a dozen dramatic shows are ready to go into rehearsal as soon as dough is available for the necessary hands and production expenses.

Who would suffer? Nobody I know of, except possibly a few chancers who are stacking away dark-of-the-moon money in their vaults—little, if any, of which ever shows up on their income tax returns.

Respectfully, Billy Rose

• No other book club brings you popular current books by famous authors for only \$1.00 each. Just imagine that! With book manufacturing costs at an all-time high, with most current best-selling fiction costing \$2.75 and \$3.00 in the publishers' editions at retail, our Dollar Book Club continues to bring its members the cream of the current books for the one low price of \$1.00 each! And in full-size library editions, handsomely bound in an exclusive Club format!

There is no fee for joining our Dollar Book Club, and there are no dues of any kind. You are not even obliged to take a book every month; the purchase of as few as six books a year fulfills your membership requirement.

Upon receipt of the coupon at the left, you will be sent WITHOUT CHARGE your choice of any two of the best-sellers shown on this page plus any third book of your choice as your first selection for \$1.00.

Then, every month, you will receive the Club's descriptive folder called *The Bulletin*. *The Bulletin* describes the forthcoming month's book selections. It also reviews about ten additional titles (in the original publishers' editions) selling at retail for \$2.75 or more! available to members at only \$1.00 each. You may purchase the new selections for \$1.00 each, or any of the other titles offered for \$1.00 each. Or you may prefer to take no book at all at a particular time, and this is your privilege. You agree only when you maintain six books out of all the selections offered during the year.

When you see the books which you have received, and when you consider these are typical of values you will continue to receive for \$1.00 each, you will be more than happy to have joined the big family of readers who are members of our Dollar Book Club!
